

IASG 2009 Scientific Programme

October 2, 2009

CME

Theme: Safety in Surgical Gastroenterology

1000-1030: **“Safe Surgery Saves Lives” campaign: How should Surgical Gastroenterologists take notice?**

Chairpersons: S K Mathur, A N Supe

Speaker: John Windsor

The WHO has launched a 'safe surgery saves lives' campaign. A landmark multi country study has shown significant reduction in mortality & morbidity with the implementation of simple checklists.

1030-1200: **Perioperative Period: what is critical & practical?**

This session is devoted to issues beyond surgical technique and intra-operative strategies, which contribute to increased safety.

Chairpersons: R Surendran, V Sitaram

1. Cardiopulmonary problems; risk assessment & reduction - D Karnad
2. Nutritional interventions: when & how? - K Mohandas
3. Coagulation defects: identification & correction - S Singhi
4. The anaesthetic contribution - A Kulkarni
5. Antibiotic prophylaxis: when, what & for how long? - P Dhar
6. Prevention of Deep Vein Thrombosis and pulmonary embolism - A Bhawe

1200-1330: **Making GI Surgery safer: lessons from the last decade**

Speaker will identify & elucidate critical areas, which they believe have made surgery safer for that organ system. This could include patient selection, timing, operative strategies & postop interventions.

Chairpersons: P Khanduri, J M Mehta

Esophagus – T K Chattopadhyay

Gastric – A Sarela

Pancreas – P Jagannath

Colorectal - R Cima

Liver - A Humar

Biliary – K Kubota

1330-1430: **Lunch**

1330-1430 **Poster viewing (Grand Salon)**

(Stomach, Esophagus, Liver, Liver Transplantation, Pancreas & Portal Hypertension)

1345-1415 **Lunch Symposium: Hemostasis in G I Surgery** (Supported by J & J wound management)

Chairpersons: M Mohapatra, K Khandelwal

Hemostasis in Liver surgery - K V Menon

Hemostasis in Laparoscopic surgery – R Ardhanari

1430-1630: **Damage limitation strategies in OR: difficult intraoperative scenarios - what can be done?**

Session devoted to Intraoperative scenarios which are difficult, potentially dangerous and need quick effective measures.

HPB: Chairpersons: A Humar, J Windsor, P Wagle

1. Cut section of liver does not stop bleeding after Hepatectomy – R Kakodkar
2. Bleeding ruptured HCC – S Naidu
3. Bile from Calot's triangle after cholecystectomy - S Jain
4. Injury to right hepatic artery during cholecystectomy - S Govil
5. Inoperable hilar cholangiocarcinoma realized after bile duct division – K Vasudevan
6. Bleeding from bed after pancreatic necrosectomy - R A Sastry
7. Hepatic artery pulse disappears after ligation of GDA – P Sahni

Luminal: Chairpersons: A Sarela, T K Chattopadhyay, S Varshney

8. Bowel obstruction but peritoneum riddled by metastases - S Haribhakti
9. Perforation of esophagus during cardiomyotomy for achalasia - R Rao
10. Bleeding during transhiatal esophagectomy - S Chandramohan
11. Large posterosuperior duodenal ulcer perforated and bleeding - R Ardhanari
12. J Pouch turns dusky after anastomosis - R Pradeep
13. Incomplete doughnut after low anterior resection – K Prakash

1630-1730: **PANEL: GLOBAL IDEAS; INDIAN REALITY**

In the last few years new ideas originating from the West have made an impact on surgical policy & practice. These include concepts like Centralization, Informed consent, Evidence Based protocols, Fast tracking
Are these ideas applicable to the Indian scenario?

Moderators: S Sikora, H Ramesh

Panelists: K V Menon, K Mohandas, S Vege, R Cima, S Nundy

1730-1800: **Tea Break**

1800-1900: **Inaugural Ceremony:**

Welcome: S Nagral

Secretary's report: H Ramesh

Presidential address: J M Mehta

Keynote address: My most memorable patient: R D Bapat, T E Udawadia, V N Shrikhande

Award presentation

Vote of thanks: N Doctor

1900-2000: **Dinner Symposium:**

Panel Discussion: Rational approach to intra-abdominal sepsis (Supported by MSD)

Session dealing with rational approach to severe intra abdominal sepsis with inputs from relevant specialists

Moderator: R A Sastry

Panel: C Rodrigues, R Soman, J D Sunavala, V Sitaram

2000 onwards **Dinner**

3rd October 2009

0700-0800: **Breakfast sessions: Meet the Professor:**

<p>Hepatobiliary and portal hypertension</p> <p>Moderator: S Shah</p> <p>Panel: A Humar, K V Menon, S K Mathur</p>	<p>Laparoscopy</p> <p>Moderator: K Khandelwal</p> <p>Panel: C Palanivelu, D Bhandarkar, A Dalvi</p>	<p>Pancreas</p> <p>Moderator: P Wagle</p> <p>Panel: J Windsor, P Jagannath, S Shrikhande</p>	<p>UGI</p> <p>Moderator: S Negi</p> <p>Panel: A Sarela, T K Chattopadhyay, S Sharma</p>	<p>Colorectal</p> <p>Moderator: P Varty</p> <p>Panel: R Cima, B Peraketh, S Haribhakti</p>
---	--	---	--	---

0800-0900: **Video session I**

Hall - Mahogany	Hall – Combined Ballrooms
<ul style="list-style-type: none"> • Advanced Hepatobiliary Procedures • Chairpersons: Maj. Gen. Choubey, S Shah <ul style="list-style-type: none"> ○ Laparoscopic hepatectomy - C Palanivelu ○ Living Donor Liver Transplant - A S Soin ○ Subsegmentectomy for HCC: K Kubota ○ Hepaticopancreaticoduodenectomy – K Kubota ○ Hilar cholangiocarcinoma with vascular resection – M Nagino 	<ul style="list-style-type: none"> • Focus on the Anastomosis: • Chairpersons: R C Aranya, S P Kaushik <ul style="list-style-type: none"> ○ Oesophago-gastric – C S Pramesh ○ Bilio-enteric – R A Sastry ○ Pancreatico-jejunal / pancreatico-gastric after PD – P Wagle ○ Colo-rectal following LAR – R Cima

0900-1000: **Award papers (Plenary)**

Chairpersons: T K Chattopadhyay, S K Mathur

Sequential therapy versus standard triple drug therapy for eradication of <i>H pylori</i> in patients with perforated duodenal ulcer following simple closure: a randomized controlled trial	GJ Valooran, JIPMER, Puducherry
Optimal utilization of the living donor pool: how to use non-usable donor livers	AS Soin, Gangaram Hospital, Delhi
The effect of preoperative carbohydrate loading in major colorectal surgery: a randomized controlled trial	S Bandyopadhyay, CMC, Vellore
Pancreaticogastrostomy versus pancreatico-jejunostomy in reconstruction after pancreaticoduodenectomy: a prospective randomized trial	MMS Bedi, Lakeshore, Kochi
The role of fat and fibrosis in pancreatic texture and in the incidence of postoperative pancreatic fistula	VM Thumma, NIMS, Hyderabad
Outcome of esophageal stenting in palliation of unresectable esophageal carcinoma. Does adjunctive radiotherapy have any added benefit? - a randomized controlled trial	A Javed, AIIMS, Delhi

1000-1030: **Lucknow Oration: “Resection for hilar cholangiocarcinoma – the anatomy and the physiology”**

Chairpersons: R Surendran, H Ramesh

Speaker: M Nagino, Nagoya, Japan

1030-1130: **Symposium “Acute pancreatitis: new rules for an old game”**

There has been paradigm shift in the understanding and approach to severe acute pancreatitis in the last few years. The session looks at some of these issues.

Chairperson: S P Kaushik, S Sikora

1. Why revise Atlanta? – S Vege
2. Step up or step down approach for infected pancreatic necrosis: a critical evaluation – H Ramesh
3. Minimally invasive approach to necrosis: When & how? – J Windsor

4. Bowel & vascular complications of severe acute pancreatitis – J Kleeff

5. Late functional results after severe acute pancreatitis – R Gupta

1130-1200: **Chennai Oration: Three decades of the J pouch**

Chairpersons: J M Mehta, R A Sastry

Speaker: R Cima, Rochester, USA

1200-1230: **Landmark publications in GI surgery**

Experts will critique papers from 2008 – 2009, which make a major impact on clinical practice.

Chairpersons: S Nundy, S Negi

UGI – I Sethu

Colorectal – M Ibrarullah

Hepatobiliary – D Singhal

Pancreatic – R K Singh

Laparoscopic – R Bhojwani

1230-1330: **Special Mention Posters**

7 posters of distinction are critically reviewed by experts

Chairpersons - H Ramesh, R Ardhanari, V Sitaram

Title	Presenter	Reviewer
1. Is bactibilia a predictor of poor outcome following pancreaticoduodenectomy?	J Satheesh, SMC, Chennai	J Windsor
2. Microbubble technology with intraoperative ultrasound improves the detection of hepatic lesions in colorectal cancer	AJ Shah, Bristol Royal Infirmary, Bristol	Z Sonawala
3. Laparoscopic liver resection	R Ravindran, Gem Hospital, Coimbatore	K V Menon
4. Pre-transplant portal vein thrombosis: operative management and outcomes in 375 consecutive living donor liver transplants	AN Rastogi, SGRH, Delhi	A Humar
5. Comparison of resection versus bypass procedures for corrosive strictures of the esophagus - a randomized controlled trial	R Gangavatiker, AIIMS, Delhi	A Sarela

6. Effect of antibiotic prophylaxis in prevention of rebleeding in patients with acute variceal hemorrhage following endoscopic therapy: a randomized controlled trial	A Agarwal, JIPMER, Puducherry	P Sahni
7. Randomised double blind placebo controlled study to evaluate the efficacy of probiotics in prevention of radiation induced diarrhoea	AD Gunaraj, JIPMER, Puducherry	S Karandikar

1330-1430: **Lunch**

1330-1430: Poster viewing – Grand Salon
(Intestine, Colorectum, Biliary and Miscellaneous)

1430- 1515: **Concurrent sessions**

Ballroom 1	Ballroom 2
<p>Neo Adjuvant and Adjuvant therapy for GI cancers: A case based discussion (Supported by Dr. Reddy's Lab)</p> <p><i>There is an increasing evidence based role for neo adjuvant and adjuvant strategies in G I cancers. The session will discuss case scenarios in this context.</i></p> <p>Moderator: S Shrikhande</p> <p>Panel: P Patil, S Pal, B Dhabhar, K V Menon, A Sarela, S Karandikar</p>	<p>New challenges for the Surgical Gastroenterologist in India</p> <p><i>Changing demographics as well as newer investigative modalities are posing unique challenges in Surgical GE. The session will address some of these.</i></p> <p>Chairpersons: R Pradeep, S P Matkari</p>
	Crohns disease in India: what the surgeon must know – P Abraham
	PET scan and it's impact on G I oncology practice – V. Lele
	Surgery in the obese patient – S Shah
	Pancreatic Incidentalomas – Z Soonawala

1515-1615: **Concurrent sessions**

Ballroom 1	Ballroom 2
<p>Symposium: “Emerging issues in living donor liver transplant” (Supported by Sandor Pharmaceuticals)</p> <p>LDLT is now established as the main form of liver transplantation in India. The session looks at some emerging issues.</p> <p>Chairpersons: R Kakodkar, V Sitaram</p>	<p>Symposium: “The wall & the cavity”</p> <p>Session devoted to looking at special problems related to the parietal wall and the abdominal cavity.</p> <p>Chairpersons: C Kantharia, A Rathnaswami</p>
Small for size syndrome: prevention & treatment - A Humar	Difficult abdominal closure: Techniques and new approaches - O V Sudheer
LDLT in Large HCC: is it worth it? – A S Soin	Abdominal compartment syndrome: Hype or reality? – G Srikanth
LDLT in Fulminant Hepatic failure: Feasibility and results – S Sudhindran	Hernias in the cirrhotic with ascites: what is to be done? – Z Soonawala
Making donation safe for the living donor: lessons learnt – S Gupta	Drainage after G I Surgery: evidence verses tradition - W Ali

1615-1715: **Free paper sessions**

Ballroom 1	Ballroom 2	Mahogany

1715-1730: **Tea Break**

1730-1830: **Video Session II: How I do it? : The critical step** (Supported by Solvay)

<p><i>Specific important steps of an operations will be highlighted with discussion with the presenter</i></p> <p>Chairpersons: R Ardhanari, P Sahni</p>	<ul style="list-style-type: none">• Nerve identification and sparing in TME – R Cima• Uncinate process resection – J Kleeff• D2 lymphdenectomy; lap and open – A Sarela• Piggybacking for Liver Transplant – A Humar• Controlling hepatic veins in liver surgery – K V Menon
---	--

1830-1900: **Quiz – S Shah**

1900-1945: **Annual General Meeting (Mahagony)**

19 45 – 20.30: **Advanced Hepatocellular Carcinoma: is there hope?** (Supported by Bayer)

Chairpersons: V Sitaram, P Jagannath

1. Advanced HCC; An algorithmic approach - B Daniele, Italy
2. Stem cell therapy for HCC – N Habib
3. Yttrium microspheres; an Indian perspective – S Marar

20.30 onwards: **Cocktails & Dinner**

4th October 2009

0700-0800: **Breakfast sessions: Meet the Professor:**

Hepatobiliary	Liver transplantation	Pancreas	UGI	Colorectal
Moderator: B. Venugopal Panel: M Nagino, K.V. Menon , A Agarwal	Moderator: S Govil Panel: A Humar, A S Soin, S Gupta	Moderator: P Radhakrishna Panel: J.Kleeff, K Prakash, R A Sastry	Moderator: D Bhandarkar Panel: S Chandramohan, J Windsor, V Kate	Moderator: W Ali Panel: V Mathai, A K Gupta, S Karandikar

0800-0900: **Video session III: New procedures in G I Surgery**

This video session looks at recently described procedures in G I Surgery Chairpersons: S K Mohanty, D Bhandarkar	<ul style="list-style-type: none">• Single-port laparoscopic cholecystectomy - P Rao• Robotic fundoplication – J Palep• Laparoscopic J pouch – S. Haribhakti• Median pancreatectomy – J Kleeff• NOTES – G V Rao
--	---

0900-0945: **Laparoscopic Surgery in 2009: Looking back; looking ahead**

Laparoscopic approach has now emerged as an alternative for many abdominal procedures.

It is now moving to newer areas. This session looks at the appropriate indications, the results and the cost effectiveness in three relatively new areas.

Chairpersons: TE Udawadia, K P Balsara

1. Pancreas – C Palanivelu
2. Esophagus – R Mistry
3. Liver – K V Menon

0945-1015: **Veerabhai JR Das Aggarwal Oration.**

Topic: Visceral artery aneurysms

Chairpersons: J M Mehta, R Surendran

Speaker: R A Sastry, Hyderabad.

1015-1145: **Debates**

Contentious but important issues which still continue to evoke strongly differing opinions

Chairpersons: A K Gupta, S Nundy

Debate 1 Laparoscopic resection for colorectal cancer is appropriate – R Cima

Laparoscopic colorectal resection does not meet oncologic goals – S Karandikar

Debate 2 Small HCC in child A cirrhotic: RFA is the treatment of choice – B Venugopal

Small HCC in child A cirrhotic: Resection is the treatment of choice – R Ardhanari

Debate 3 Bowel preparation for colorectal surgery must be abandoned – S Varshney

Bowel preparation is still important in colorectal surgery – R Patankar

Debate 4 There is circumstantial evidence that gallstones lead to carcinoma gall bladder – S Shrikhande

There is no connection between gallstone and carcinoma gall bladder – A Agarwal

1145-1200: **Tea Break**

1200-1300: **Free paper sessions**

Role of Laparoscopy in stoma creation, reversal and Complications – R. Ardhanari3. Skin protection in fistula management – Sister N Chakravorthy

VIDEO ACADEMY (Mahogany) (800am – 800pm)

Selected, edited videos covering the entire gamut of Surgical Gastroenterology will be run throughout the conference at 4 stations in Mahogany Hall. These will be run on all three days and repeated morning, afternoon and evening.

UPPER GI SURGERY

Thoracoscopic esophagectomy in dorsolateral position : an innovative approach	Suraj Pawar
Total esophagectomy and coloplasty	S M Chandramohan
Laparoscopic anterior partial fundoplication	John Windsor
Thoraco-laparoscopic esophagectomy	C Palanivelu
Laparoscopic cardiomyotomy for achalasia cardia	Disha Sayl
Laparoscopic repair of large paraesophageal hernia	Deepraj Bhandarkar

COLORECTAL SURGERY

Laparoscopic right hemicolectomy	Disha Sayl
Laparoscopic anterior resection	Ajay Kriplani
Laparoscopic low anterior resection	Kalpesh Jani
Laparoscopic suture rectopexy	Baiju Sendhiappan
Prone abdominoperineal resection	Sharad Karandikar
MRI-guided trans-sphincteric fistula surgery	Sharad Karandikar

HEPATOPANCREATOBILIARY SURGERY

Laparoscopic management of giant hydatid of liver

Kalpesh Jani

Laparoscopic CBD exploration

Baiju Senadhipan

Excision of type IV choledochal cyst
